The team at Darrandirra Child and Family Centre would like to thank Larrakia Nation for their assistance in naming of our Centre and the design of our logo.

We acknowledge the Larrakia people, the traditional owners and custodians of the country where we live and work, and their continuing connection to community.

We pay our respects to their culture, and to their elders, past, present and emerging.

Child and Family
Centre**

Overview

The name Darrandirra, translates to 'all of us'. In the spirit of inclusion the Darrandirra Centre offers a range of support and well-being activities for all children, youth and families in the Northern Suburbs.

Programs and activities are child and family-focused, safe, fun, and sensitive to cultural diversity.

We have a 'no wrong door' approach. No matter what support you need, or service you are already connected with, we can work together to help you.

How we work

1. Strengths-based: Individual, family, and community strengths are central to supporting you to reach your goals.

2. Person-centred: You are the expert in your own life and are empowered to make decisions.

3. Culturally Safe: Programs, activities and services delivered are inclusive of everybody.

4. Relationally based: Our relationships with everyone accessing our services are very important.

5. Family and Community focused: Community led decision-making around the service and activities offered at the Centre.

Our Services

We will help you and your family to be supported, stay connected, and able to navigate systems through our care coordination model.

Children, youth, and families can get:

- Information and help to access a range of services in our community (e.g. housing, education, health).
- Outreach support through our team and our community partners.
- Interactive activities and programs for community members. You can check out our events www.caaps.org.au/darrandirra
